However, employees who voluntarily travel to a point for free transportation to the job site will not be compensated for the time en route and return. For offshore work, employees will receive travel pay at straight-time rates from point of embarkation to jobsite and from job-site to debarkation regardless of mode of transportation, which transportation shall be at Contractor's expense. If no camp is furnished by Contractor, such transportation shall be furnished daily and, in addition, if any work of construction at any of the islands or any combination of them shall exceed (5) working days, Monday through Friday, then employees shall also be furnished transportation at the conclusion of their shift of the fifth day of employment back to the point of embarkation for the weekend with transportation being furnished them prior to the commencement of the Monday morning shift from the point of embarkation back to the islands. Any transportation required to or from the point of embarkation and any transportation in between shall be at the expense of the Contractor.

At my choice and voluntarily I elect and choose to take a single 20-minute paid rest period within the first 3 hours of my work shift and forego the afternoon 10-minute rest period, instead of taking the two authorized 10-minute rest periods, as set forth above.

I acknowledge that I have been advised by my employer that I may revoke this election at any time by providing written notice to my employer, of the revocation of this election.

I understand and agree that if I have any claim that my employer has not provided rest periods as required by law or the collective bargaining agreement, I must file a grievance with my union, the OPMCIA Local 200, pursuant to the grievance/arbitration procedure of the collective bargaining agreement.

Addendum 2

Grievances and Disputes

The Parties to this Agreement recognize that the Supreme Court of the United States has consistently held for over fifty years that federal law and policy favors the use and finality of arbitration procedures established through collective bargaining agreements to resolve all nature of disputes affecting the employee-employer relationship.

As the designated representative of employees, the Union contracts regarding the specific terms and conditions of employment as well as the enforcement mechanism to ensure those conditions are met, which mechanisms include grievance arbitration. These terms, conditions and enforcement mechanisms are generally superior to those available to employees not covered by collective bargaining agreements. Grievance arbitration provision in a collective bargaining agreement is reflected in national labor laws and is premised on the federal policy to promote industrial stabilization through the collective bargaining agreement. "A major factor in achieving industrial peace is the inclusion of a provision for arbitration of grievances in the collective bargaining agreement." *United Steelworkers of Am. v. Warrior & GulfNav. Co.*, 363 U.S. 574, 577-78, 80 S. Ct. 1347, 1350, 4 L. Ed. 2d 1409 (1960). *D.R. Horton, Inc. v. N.L.R.B.*, 737 F.3d 344,361 (5th Cir. 2013) ("[W]e discern] in the structure of the [National Labor Relations Act] the very specific right of employees to complete the collective bargaining process and agree to an arbitration clause." Citing, *Blessing v. Freestone*, 520 U.S. 329, 343, 117 S.Ct. 1353, 137 L.Ed.2d 569 (1997) (internal quotation marks and citation omitted).

The Parties to this Agreement recognize that the National Labor Relations Board has held that the pursuit of collective or class action claims is concerted action but that a union may waive certain rights to concerted action in a collective bargaining agreement. In doing so, the National Labor Relations Board recognized that a collectively bargained arbitration clause stems from the exercise of rights to act in concert and that "[F]or purposes of examining whether a waiver of Section 7 rights is unlawful, an arbitration clause freely and collectively bargained between a union and an employer does not stand on the same footing as an employment policy ... imposed on individual employees by the employer as a condition of employment." *D.R. Horton Inc.*, 357 NLRB No. 184 (January 3, 2012).

The Parties to this Agreement recognize that arbitration pursuant to the grievance procedure affords numerous benefits including expedited resolution of disputes; reduced cost and expense as compared to litigation; potentially greater monetary relief to individual employees; benefit of the arbitrator's knowledge and expertise with the bargaining parties, the employment relationships governed by the collective bargaining agreement, and the practices of the construction industry; less restrictive rules of evidence; and less formal procedures. The Parties also recognize that class and representative action procedures are designed to afford a mechanism of relief for claims for which the costs of litigation are disproportionate to the available relief and that this grievance procedure addresses the same concerns by providing an

expedited mechanism at reduced cost to address such claims without the need for class or representative action procedures. It is therefore the intent of the parties that this grievance procedure provides a mechanism for resolving the individual claims covered herein which balances expedited and complete relief to employees for violations with avoidance of unnecessary costs and disproportionate remedies associated with class and representative actions.

A. Arbitration of Employment Related Claims.

Any dispute, complaint or grievance alleging a violation of the Agreement shall be processed through Article XII, Joint Conference Board and Procedure for Settling Grievances and Disputes. The Local Union and Union shall retain sole and exclusive ability to bring such a grievance to arbitration pursuant such Article. In addition, any dispute, complaint or grievance concerning a violation of, or arising under, Industrial Welfare Commission Wage Order 16 ("Wage Order 16") which is subject to Article XII, Joint Conference Board and Procedure for Settling Grievances and Disputes by operation of Wage Order 16 and exemptions contained therein for employees covered by collective bargaining agreements shall remain subject only to Article XII and not this Appendix A. Disputes, complaints or grievances within the scope of this paragraph shall be referred to as "Contractual Disputes." In addition to Contractual Disputes that may be brought by the Union or Local Union as described above, all employee disputes concerning violations of, or arising under Wage Order 16 (except as noted in the immediately preceding paragraph), the California Labor Code Sections identified in California Labor Code section 2699.5 as amended, the California Private Attorneys General Act (Labor Code section 2698, et seq.), and federal, state and local law concerning wage-hour requirements, wage payment and meal or rest periods, including claims arising under the Fair Labor Standards Act (hereinafter "Statutory Dispute" or "Statutory Disputes") shall be subject to and must be processed by the employee pursuant to the procedures set forth in this Appendix A as the sole and exclusive remedy. To ensure disputes are subject to this grievance procedure in accordance with the intended scope of coverage set forth herein, Statutory Disputes also include any contract, tort or common law claim concerning the matters addressed in the foregoing laws (other than a claim of violation of the Agreement which are deemed Contractual Disputes). This Appendix A shall not apply to claims before the National Labor Relations Board, the Employee Equal Opportunity Commission, the Department of Fair Employment and Housing, and the California Division of Workers' Compensation.

B. Procedure for Arbitration of Disputes.

No Statutory Dispute subject to this Appendix A shall be recognized unless called to the attention of and, in the event, it is not resolved, confirmed in writing by the individual employee to the individual Contractor and the Local Union within the later of (i) the time set forth in Article XII, Joint Conference Board and Procedure for Settling Grievances and Disputes, or (ii) the time provided for under applicable statute.

Grievances and arbitrations of all Statutory Disputes shall be brought by the individual employee in an individual capacity only and not as a grievant or class member in any purported class or representative grievance or arbitration proceeding. The Arbitrator shall have the authority to consolidate individual grievances for hearing but shall not have the authority to fashion a proceeding as a class or collective action or to award relief to a group or class of employees in one grievance or arbitration proceeding.

If the individual employee dispute is a Statutory Dispute subject to this Appendix A, the grievance shall not be heard by the Joint Adjustment Board but shall proceed directly to an independent Arbitrator. In such cases, the procedures for selection of an Arbitrator contained in Article XII shall not apply; instead, the individual employee and the Contractor shall proceed to arbitration pursuant and subject to the American Arbitration Association National Rules for Employment Disputes. The Contractor shall pay all fees and costs related to the services of the American Arbitration Association and the services of the Arbitrator; however, the Arbitrator may reallocate such fees and costs in the arbitration award, giving due consideration to the individual employee's ability to pay. Each party shall pay for its own costs, expenses, and attorneys' fees, if any. However, if any party prevails on a statutory claim which affords the prevailing party costs or attorneys' fees, or if there is a written agreement providing for an award of costs or attorneys' fees, the Arbitrator may award costs and reasonable attorneys' fees to the prevailing party. Any issue regarding the payment of fees of costs, and any disputes about the manner of proceeding shall be decided by the Arbitrator selected. The Local Union or Union shall not be a party to such and shall bear no costs or fees of the arbitration. The Arbitrator shall have full authority to fashion such remedies and award relief consistent with limitations under federal and state law, and precedent established thereunder, whether by way of damages or the award of attorneys' fees and other costs, orders to cease and desist, or any and all other reasonable remedies designed to correct any violation which the Arbitrator may have found to have existed, including such remedies as provided under applicable state or federal law or regulation. The decision of the Arbitrator is final and binding upon the parties and is enforceable in a court of competent jurisdiction.

The Arbitrator shall not have any authority to award relief that would require amendment of the Agreement or other agreement(s) between the Union and a Contractor or the Association, or which conflicts with any provision of any collective bargaining agreement or such other agreement(s). Any arbitration outcome shall have no precedential value with respect to the interpretation of the Agreement or other agreement(s) between the Union and a Contractor or the Association.

Effective Date of Amendment.

This Amendment shall be effective August 1, 2018 and incorporated by reference in the Agreement as if fully set forth therein. Except as expressly amended by this Amendment, all of the terms of the Agreement shall remain the same.

EXHIBIT “A”

**DRUG ABUSE
PREVENTION
AND
DETECTION**

EXHIBIT “A”

DRUG ABUSE PREVENTION AND DETECTION

The parties recognize the problems, which drug abuse, have created in the construction industry and the need to develop drug abuse prevention programs. Accordingly, the parties agree that in order to enhance the safety of the work place and to maintain a drug free work environment, individual employers may require applicants or employees to undergo drug screening. The parties agree that if an individual Employer implements a screening program, Labor and Management have agreed upon the following items:

1. It is understood that the use, possession, transfer, or sale of illegal drugs, narcotics, or other unlawful substances is absolutely prohibited while employees are on the Employer’s job premises or while working on any site in connection with work performed under the applicable agreement
2. All applicants or newly hired employees will undergo a drug screen at a facility that has been certified by the National Institute of Drug Abuse. The Employer agrees to pay each applicant or employee who takes and passes the drug screen test for all the time it takes to undergo the drug screen up to a maximum of two hours travel time plus lab time.
3. Applicants and employees not passing the drug screen will be removed from the Employer’s payroll. The Employer agrees to pay the cost for administering the drug screen and the time stated in number 2 above.
4. The employer may require that an employee be tested for drugs where the Employer has reasonable cause to believe that the employee is impaired from performing his/her job. At least two (2) persons, one of whom may be a Union employee, must make observation. This provision shall be applied in a non-discriminatory manner. Supervisors will administer the program in a fair and confidential manner. For employees who refuse to take a test where the prerequisites set forth in this paragraph have been met, there will be a rebuttable presumption that the test result would have been positive for an unlawful substance.
5. An employer may require that an employee who contributed to an accident be tested for drugs where the Employer has reasonable cause to believe that the accident resulted from drug usage.
6. There will be no random drug testing by the signatory employer.
7. It is understood that the unsafe use of prescribed medication, or where the use of prescribed medication impairs the employee’s ability to perform work, is a basis for removal.
8. A sufficient amount of a sample shall be taken to allow for an initial test and a confirmation test. The initial test will be by Enzyme Multiplied Immunoassay Technique (EMIT). In the event a question or positive result arises from the initial test, a confirmation test must be utilized before action can be taken against the employee or applicant. The confirmation test will be by gas Chromatography – mass Spectrometry (GC/MS). The cutoff levels for both the initial test and confirmation test will be those established by the National Institute of Drug Abuse. Confirmed

positive samples will be retained by the testing laboratory in secured long term frozen storage for a minimum of one year. Handling and transportation of each sample must be documented through strict chain of custody procedures.

9. Present employees, if tested positive, shall have the prerogative for a rehabilitation program at the employee's expense. When such program has been successfully completed, the employer shall not discriminate in any way against the employee. If work for which the employee is qualified exists, he or she shall be reinstated.
10. Any dispute, which arises under this drug policy, shall be submitted to the grievance and arbitration procedure set forth in the applicable agreement.
11. In the event an individual employer is required, as a condition of contract award, to abide by the terms and conditions of a General Contractor or Building Owner's drug policy, the Employer will notify the interested Unions in writing prior to implementing such policy and all employees of the employer shall be informed that the program they will be working under differs from the standard policy. Employees shall have the right to request that they be assigned to another project with no inferences being made.
12. The establishment or operation of this policy shall not curtail any right of and employee found in any law, rule, or regulation. Should any part of this policy be found unlawful by a court of competent jurisdiction or a public agency having jurisdiction over the parties, the remaining portions of the policy shall be unaffected and the parties shall enter negotiations to replace the affected provision.
13. The Employer shall indemnify and hold the Union harmless against any and all claims, demands, suits or liabilities that may arise solely out of the employer's application of the substance Abuse Program.
14. Any employer implementing a Drug Testing policy pursuant to this Memorandum of Understanding will give the Unions fifteen (15) days advance notice before implementation.

EXHIBIT "A-1"

ORAL DRUG TESTING

WHEREAS WWCCA and Local 200 recognize the importance of reasonable procedures to ensure that project sites are managed to protect worker's safety and to permit high quality work;

WHEREAS WWCCA and Local 200 have discussed procedures to implement these goals in relation to screening for prohibited drugs; and,

NOW, THEREFORE, WWCCA AND LOCAL 200 AGREE AS FOLLOWS:

DRUG TESTING

Employers may require employees subject to the collective bargaining agreement to take Avitar "ORALscreen" and/or Branam Medical Corporation "Oratect" oral fluid tests, which the undersigned agrees are effective and are low-cost tools for substance abuse screening for pre-employment testing and for testing employees during post accident investigations.

Testing procedures shall be conducted in a manner consistent with the product manufacturers' specifications. Any non-negative test will be treated as Inconclusive and the sole use of the test will be to require a further test at a certified facility as permitted by the collective bargaining agreement.

Employers may seek a urine test at a certified laboratory in accordance with the drug testing procedures set forth in the existing Collective Bargaining Agreement in addition to or in lieu of the test described above.
